

# MRS. BURNS LEMON BASIL

OCIMUM BASILICUM CTRIODORA

AN HEIRLOOM BASIL DISCOVERED IN NEW MEXICO IN THE GARDEN OF ( YOU GUESSED IT!) MRS. BURNS, THIS BASIL HAS A MORE INTENSE LEMON OVERTONE THAN OTHER LEMON BASILS. ITS DISTINCT FLAVOR IS PERFECT FOR PAIRING WITH CUCUMBERS, ARTICHOKE (MMMM... ARTICHOKE WITH LEMON BASIL VINAIGRETTE!), OR HOW ABOUT IN ICED TEA? IT IS A STRONG GROWING, VIGOROUS BASIL THAT QUICKLY AND EASILY REACHES 24" HIGH AND WIDE. HARVEST IT OFTEN TO KEEP UP THE PRODUCTION OF THE TANGY, LEMONY LEAVES.
