

SOOTY SWEET WILLIAM

DIANTHUS BARBATUS VAR NIGRESCENS

HERE'S A TWIST ON OLD FASHIONED SWEET WILLIAM. SOOTY HAS A DARK LEAF, PARTICULARLY GROWN IN THE SUN, AND A FRAGRANT FLOWER OF THE DEEPEST

MAHOGANY RED. ITS BROODING PRESENCE CREATES A NICE CONTRAST WITH BRIGHTER COLORED FLOWERS, ADDING A CERTAIN SOPHISTICATION TO YOUR PLANTINGS. ATTRACTS BUTTERFLIES WHEN IN BLOOM, AND THE EDIBLE FLOWER PETALS CAN BE USED FOR GARNISH OR FLAVORING, WHERE THEY LEND A SWEET, SPICY NOTE. GREAT FOR CUT FLOWERS!
