

# SANTA BARBARA DAISY

## ERIGERON KARVINSKIANUS

SUCH A SWEET, DELICATE PLANT! LOVELY TRAILING OVER WALLS OR AS A "SPILLER" IN POTS, THIS ONE KEEPS GOING ALL SUMMER LONG. SO ADAPTABLE, IT BLOOMS WELL EVEN IN PARTIAL SHADE, TAKES ANYTHING FROM REGULAR TO VERY LITTLE WATER, ACCEPTS POOR SOIL, AND GENERALLY GROWS AND PROLIFERATES IN A WHOLE VARIETY OF SITUATIONS. NOT USUALLY BOTHERED BY DEER, THE TINY WHITE TO PALE PINK DAISIES WILL FILL IN AROUND YOUR OTHER PLANTS, BRINGING A CERTAIN SOFTNESS TO YOUR PLANTING SCHEME. SELF SOWS READILY, SO BE PREPARED FOR MORE PLANTS! EASY TO GROW AND ENJOYED BY BEES AND OTHER BENEFICIALS. CUT BACK A FEW TIMES A YEAR FOR BEST RESULTS.

ZONES 6-9

SUN TO PART SHADE
