

HENFIELD BRILLIANT SUNROSE

HELIANTHEMUM NUMMULARIUM 'HENFIELD BRILLIANT'

EVERGREEN GROUND COVER FOR DRY PLACES, "HENFIELD BRILLIANT" SUNROSE WILL SPREAD TO FORM A LOW, SOFT MOUND REACHING 2' WIDE AND 8" TALL. ITS GRAY-GREEN FOLIAGE IS NICE, BUT THE 1" BLOOMS, APPEARING IN EARLY SUMMER ARE AN AMAZING SHADE OF RED-ORANGE, A COLOR THAT CAN BE HARD TO FIND IN PERENNIAL PLANTS! GROW THIS CLOSE, BUT FAR MORE DIMINUTIVE, RELATIVE OF THE ROCK ROSES IN ROCK GARDENS, ON SLOPES, AS A TRAILER OVER WALLS, OR OTHER AREAS WITH GOOD DRAINAGE. HOW ABOUT A HANGING BASKET? GORGEOUS.

ZONES 5-9

SUN TO LIGHT SHADE
