

HYBRID HELLEBORE

SHADE

ZONES 3-9

HELLEBORUS X HYBRIDUS

ONE OF OUR FAVORITE PERENNIALS, THE HELLEBORES HAVE EARNED THEIR DISTINCTION; THEY ARE DROUGHT-TOLERANT, CLAY-TOLERANT, FROST-TOLERANT, HIGHLY DEER AND RABBIT RESISTANT, EVERGREEN, AND GLADLY BLOOM IN THE FULL SHADE AT THE END OF WINTER AT A TIME WHEN WE ARE HUNGRY FOR THE FIRST SIGNS OF SPRING, SOMETIMES POKING THEIR FLOWERS UP THROUGH THE SNOW. THE FLOWERS LAST A LONG TIME ON THE PLANT, OFTEN UNTIL JUNE. THESE HYBRID SEEDLINGS MAY HAVE VARIED CHARACTERISTICS, BUT ALL ARE SURE TO BE LOVELY. TO 2X2'
