

DWARF LAVENDER

LAVANDULA X CHAYTORAE 'LISA MARIE'
(ANGUSTIFOLIA X LANATA)

SMALL AND TIDY, LISA MARIE WON'T TAKE UP MUCH SPACE, BUT MAKES UP FOR HER PETITE SIZE WITH PLENTY OF FRAGRANT BLOSSOMS IN A RICH PURPLE SHADE, AND A COMPACT FORM. WITH NICE, SILVER FOLIAGE, THE WHOLE PLANT IS ONLY ABOUT 12-18" HIGH BY 2' WIDE. PERFECT FOR EDGING A WALKWAY WHERE THE INVIGORATING PERFUME WILL WELCOME PASSERS-BY AND POLLINATORS ALIKE. LIKE ALL LAVENDERS, THIS ONE IS DROUGHT TOLERANT AND DEER RESISTANT BUT REQUIRES WELL DRAINED SOIL, SO PLANT HIGH IF YOU'VE GOT CLAY SOIL. CUT BACK TO A ROUNDED HUMMOCK AFTER BLOOM TO HELP LISA MARIE KEEP HER YOUTHFUL FORM. BEAUTIFUL PLANTED EN MASSE!

ZONES 5-9
