

# CREeping BRAMBLE

## RUBUS PENTALOBUS

SPREADING AS A LOW, EVERGREEN CARPET, CREEPING BRAMBLE IS GREAT FOR DRY SHADE. AS A CAREFREE GROUND COVER, IT IS HARD TO BEAT. PRODUCING A SMALL WHITE FLOWER AND AN EDIBLE ORANGE BERRY, IT ALSO CONTRIBUTES WINTER INTEREST WHEN THE STURDY, RICH GREEN LEAVES TAKE ON HUES OF RED TO BURGUNDY IN RESPONSE TO COOL WEATHER. GREAT FOR TRAILING OVER WALLS, OR EVEN OUT OF HANGING BASKETS. ITS DENSE, 5" HIGH MAT OF TUMBLING LEAVES GLADLY COVERS SLOPES THAT NEED A LITTLE LUSHNESS. ADAPTABLE TO A VARIETY OF SITUATIONS, EVEN GROWING UNDER NATIVE OAKS. AN EASY AND SATISFYING LANDSCAPE PLANT TO HELP MAKE YOUR WORLD JUST A LITTLE GREENER. DROUGHT-TOLERANT AND DEER RESISTANT.

ZONES 6-9

MOSTLY SUN TO PARTIAL SHADE
