

CLEVELAND SAGE

SALVIA CLEVELANDII

WELL KNOWN TO LOVERS OF CALIFORNIA NATIVE PLANTS, CLEVELAND SAGE'S AROMATIC QUALITIES ARE SURE TO IMPRESS. WAFTING THROUGH THE AIR LIKE SO MANY BLOOMING FLOWERS, THE SWEET SCENT ACTUALLY COMES FROM THE EVERGREEN LEAVES. THIS IS A SHRUBBY SAGE, REACHING THE 4' TALL AND WIDE. IT IS HIGHLY DROUGHT TOLERANT, SO PUT IT IN YOUR HOTTEST, DRIEST SPOT AND PRETTY MUCH LEAVE IT ALONE. ALL IT REALLY ASKS FOR IS GOOD DRAINAGE. FRAGRANT AS IT IS, IT IS WAY OFF THE DEER'S MENU. IT IS OUR FIRM BELIEF THAT EVERYONE SHOULD HAVE ONE OF THESE. FEEDS THE BEES!

USDA ZONES 8-11
