

HOT LIPS SAGE

ZONES 8-11

SALVIA X JAMENSIS 'HOT LIPS'

SO MUCH EASIER AND MORE SUCCESSFUL THAN MOST OF THE AUTUMN SAGES, HOT LIPS QUICKLY FILLS A 3X4' SPACE. ALMOST NEVER OUT OF BLOOM, THE PLANT MAKES BLOOMS THAT VARY FROM NEARLY ALL WHITE, TO NEARLY ALL RED, TO BI-COLORED WHITE AND RED ON ONE AND THE SAME PLANT. ITS AROMATIC FOLIAGE MAKES IT HIGHLY RESISTANT TO BROWSING DEER, WHILE THE BLOSSOMS ARE A TREAT FOR HUMMINGBIRDS. ITS VERY LONG BLOOM SEASON, DROUGHT TOLERANCE, AND EASE OF CULTURE MAKES HOT LIPS SAGE ONE OF THE MOST REWARDING PLANTS YOU CAN GROW.

SUN TO PARTIAL SHADE
