

# PURPLE LEAF SAGE

*SALVIA OFFICINALIS* 'PURPUREA'

WE LOVE PERENNIAL EDIBLES! ESPECIALLY BEAUTIFUL ONES LIKE THIS. PURPLE LEAF SAGE IS JUST LIKE ITS COUSIN, THE GARDEN SAGE WE ALL KNOW AND LOVE. THE DIFFERENCE? THE GORGEOUS SMOKY PLUM AND MINT GREEN COLOR OF THE FOLIAGE! THE COLOR OF PURPLE LEAF SAGE MAKES IT A PRETTY ENOUGH FOR FLOWER BEDS AND MIXED CONTAINERS, BUT THE FLAVOR IS ALL SAGE. TRUTH BE TOLD, THERE ARE THOSE WHO SAY IT IS A BIT Milder IN FLAVOR THAN TRADITIONAL SAGE, BUT THE JURY IS STILL OUT. EITHER WAY, IT'S A DEER RESISTANT STUNNER OF A PLANT THAT WILL ADD BEAUTY TO YOUR HERB GARDEN, PERENNIAL BEDS, LANDSCAPE, ETC. BOTTOM LINE IS, IF YOU'VE NEVER COOKED WITH FRESH SAGE, YOU ARE DEFINITELY MISSING OUT.
